PEEL-HALTON LOCAL GOVERNMENT REVIEW

SUITE 211, 6 CHARLES STREET EAST, TORONTO 5, ONTARIO, TEL.: 365-5809

SPECIAL COMMISSIONER
THOMAS J. PLUNKETT

SECRETARY & RESEARCH DIRECTOR
LIONEL D. FELDMAN

Gentlemen:

The following tables were prepared by the Municipal Organization Section, Department of Municipal Affairs. It is a pleasure to acknowledge their efforts which have made this part of the task much easier.

Responsibility and authority for the preparation and issuance of this material rests with, and is solely, the prerogative of the Commissioner.

This letter and such footnotes as appear in certain tables constitute the only comments on data at this time. The basic reason for release of this data is to provide, on a comparable and standard basis, statistics which might assist those who are to make a submission to the Review. While many interpretations of the data are possible, and probable, if arguments are to be developed about ways of reorganizing or revising the existing system of local government in this area (item (c) in the Terms of Reference) these arguments should be based on standardized data available to all.

Thomas J. Plunkett

assessment

Assessment:

The assessment for taxation has been equalized for comparison purposes on the basis of factors prepared by the Department of Municipal Affairs. The locally established taxable assessment is divided into five categories - Residential, Farm, Manufacturing and Industrial (including Business), Professional and Commercial (including Business) and Other. An equalization factor for each category of assessment is determined and the total of these equalized categories is the total equalized taxable assessment which is used to establish an overall equalization factor.

Property exempt from taxation includes properties owned by the Dominion, Provincial and municipal governments and their boards and commissions, churches, schools, hospitals and charitable institutions. The equalized figures for exempt property assessment are obtained by applying the overall equalization factor as reported by the Department of Municipal Affairs. They should be considered an estimate but it is thought to be the only way in which figures comparable to those of equalized taxable assessment could be obtained.

Totals may not add due to rounding.

Includes 117,100 sq. ft. of vacant land, 100% of which is non-residential.

1964 Annual Report of Municipal Statistics, Department of Municipal Affairs.

Appendix A

Re: Total Equalized Assessment

The figure shown as the equalized value of exempt property should be considered an estimate only. It should, therefore, be used with caution. The figure has been obtained by applying the overall equalization factor for the municipality to the unequalized assessment for exempt property. This is the only way in which a figure even roughly comparable to equalized taxable assessment can be obtained. An explanation of the manner in which equalized taxable assessment is obtained will illustrate why the application of the overall equalization factor produces only an approximation of the equalized value of one category of assessment.

To establish equalized taxable assessment:

1. An equalization factor is established for each category of taxable assessment (i.e. residential, farm and commercial)
2. This factor is applied to the total unequalized assessment in that category.
3. The equalized assessments thus established for each category are then totalled.
4. The relationship between the total unequalized assessment and the total equalized assessment is then obtained and called the (overall) equalization factor for the municipality.

Example

Category	Unequalized Assessment	Factor	Equalized Assessment
Residential	50	90	55
Commercial	50	98	51
Total	100	-	106
Factor Established		94	

From the above example, it can easily be seen that if the overall equalization factor of 94 were applied to the residential category, it would produce an equalized assessment for that category 53, when in fact the equalized assessment for the category is 55.

debt

Debt

Tables D1 to D6 outline the gross debenture debt issued by and outstanding against municipalities in the study area. Gross debenture debt includes debt issued by a municipality on behalf of school boards, public utilities and other enterprises, joint projects for which it makes recoveries from other municipalities, as well as debt issued for general municipal and local improvement purposes. It does not include debt owed by municipalities to the Ontario Water Resources Commission.

The net debt figures are obtained by adding to gross debt, debt assumed from other municipalities and by subtracting debt assumed from other municipalities and public utilities debts.

All figures on New Debt Issued are gross figures.

The figures which show debt classified by function should be considered as estimates only due to inconsistencies in reporting practices. This does not apply to school debt; the area of inconsistency lies between general, local improvement and public utilities. Similarly, the year in which new debt is reported -- the year in which it is issued (e.g. Dec. 1962), or that in which it is sold (e.g. Jan. 1963) -- varies between municipalities.

**general municipal
revenue and expenditure**

(Excluding Education Revenue and Expenditure)

Expenditure - Local municipal expenditure is defined here as the gross annual expenditure of the municipal corporation excluding expenditure on education. The totals for expenditure include debt charges and capital expenditures out of current revenue, but exclude the expenditures of independent boards and commissions, except as they are reflected in grants from the municipal corporation itself.

The following are the major items included under the various classifications of General Municipal Expenditure:

<u>General Government</u>	-	includes executive and administration salaries, audit fees, municipal building maintenance and election expenses.
<u>Protection to Persons & Property</u>	-	includes police and fire protection, administration of justice and street lighting.
<u>Public Works</u>	-	includes maintenance and construction of roads and sidewalks, ice and snow removal and equipment maintenance.
<u>Sanitation & Waste Removal</u>	-	includes sewer system and dump maintenance and street cleaning.
<u>Conservation of Health</u>	-	includes hospital and ambulance grants and Board of Health expenses.
<u>Public Welfare</u>	-	includes child welfare, relief assistance and institutional care and homes for the aged.
<u>Recreation & Community Services</u>	-	includes public libraries, arenas and parks.
<u>Debt Charges</u>	-	includes debt charges for general municipal purposes, for utilities and for education, on debt issued by the municipality but assumed by other municipalities; they exclude the municipalities own share of education debt charges, both on its own debenture issues and on those assumed from another municipality.
<u>Other</u>	-	includes discount on taxes, taxes written off, deficits of utilities and other enterprises and provision for reserves and allowances.
<u>Joint or Special Expenditures</u>	-	includes county, police village and special area rates.

Revenue - Municipal Revenue is here defined as all income received directly by the municipal corporation exclusive of school taxation and school grants. Revenues of independent boards and commissions, such as Utilities Commissions, are not included.

The major items included under the general headings in the tables are:

Local Taxation -

includes owners share of local improvements and taxation revenue both real property and business, exclusive of taxation for school purposes.

Taxes & Subsidies -

includes payments in lieu of taxes for Dominion property, payments in lieu of taxes for certain Provincial property and that of its boards and commissions such as Ontario Hydro and Liquor Control Board, Provincial grants and subsidies such as those for roads, health, welfare services, and educational institutions such as County grants.

Licenses & Permits -

includes fees received from the licensing of trades and storekeepers and the issuing of building permits.

Interest & Dividends -

includes debt charges recoverable from other municipalities and public utilities.

Other -

includes Interest on taxes, surpluses of Utilities and Other Enterprises, and any surplus from prior years.
